

## MANHATTAN ESTABLISHES NEW RECORD

News Brought in Yesterday of Rich Strike on the Stray Dog-Road Between Tonopah and Manhattan Alive With Automobiles.

Manhattan is helping those who are helping to boost her more than any other agency. News of another strike reached here yesterday and it was another big one, in line with the strikes which have been bringing the camp into the public eye for the past week. The new strike was on the Stray Dog, and it is said that a ledge has been opened there from which assays of \$1200 have been taken.

There is a nice record for the past week. First, we had the strike on the Cram-LaLime lease on Union No. 4 on last Saturday, with ore that went from \$500 to \$700 a ton; then came the big find on the Douglass-Kendall lease, which went \$1300 to the ton. Following this came the discovery of \$500 ore on the Rose-Nash lease adjoining that of the Cram-LaLime lease, and now we have the strike on the Stray Dog.

That is not all. Word was received here yesterday that an assay had been taken for eight feet of ore on the Rose-Nash lease, and it returned \$50 to the ton clear across.

The road between here and Manhattan is alive with automobiles. There were three machines went out from here yesterday, and one from Goldfield. It is beginning to look in the northern camp as it did nearly two years ago, when in the cold December, teams were plodding through the mud and snow, with people attracted by the reports of the finds in that camp. It was quiet enough then in this country, for there was nothing doing here, and a cannon ball sent through the streets of Goldfield would not have hit anyone.

Billy Bond, of the Goldfield firm of W. F. Bond & Co., was in San Antonio when he heard of the finds in Manhattan, and he slipped out at 4 o'clock with his team and made for the camp. It looked good to him and he got hold of the Annie Laurie claim, and then went back to Goldfield as fast as he could and displayed the ore that he had taken back with him. He had ore from the Annie Laurie, and from other properties in Manhattan, and he went every place the night of his return to Goldfield, and the result was that before morning there was a procession of vehicles of all kinds on the way from Goldfield to the new El Dorado.

Tonopah, in the meantime, was well represented in the camp, and the men of this city were busy in the work of development. They had located nearly everything, and the men from Goldfield were not slow in trading with them. The boom was started in the middle of the winter, and buyers were eager for properties which were covered with snow.

Manhattan was then in no condition as she is at present. Today she is a proven camp, with mills almost completed, with thousands of tons ready for the mills, and with a great amount of high grade ore as well. Fred Brown went out to the northern camp yesterday, returning in the afternoon. He saw the assay of the Rose-Nash lease.

"Things are certainly stirring in Manhattan," said Mr. Brown, "and she is going to be a hummer. Percy Nash himself told me of the assay, and asked me to deliver the message to my brother, Hugh. That is certainly going some. Then think of Stray Dog. They have thirteen sacks ready for shipment, which will go \$1200 a ton."

"When the mills are up we will see wonderful changes in the camp. The Annie Laurie claim of the Manhattan Company, has been doing great work in the matter of block-

## HORRIBLE STATE OF NORTHERN INDIANS

(Associated Press.)  
WINNIPEG, Man., Oct. 17.—That the Indian tribes living within a few hundred miles of Winnipeg have reverted to the most brutal savagery was brought out at the trial of chiefs of the Salteaux tribe, just ended at the Hudson Bay Company's fort at Norway. Sick and helpless members of the tribe were strangled or burned at the stake for no other reason than to relieve their relatives of caring for them. Chief Joseph Pezquan was convicted of murder and sentenced to die. Chief Jack of the Sucker band, of the same tribe, strangled himself to death in his cell the night before the date set for his trial. Two brothers named Rae are in jail at Norway house, awaiting trial for several murders.

WOMAN LOSES MINING SUIT.  
REDDING, Oct. 17.—By a decision handed down today in the superior court by Judge Head, Mrs. Eugenia J. Goss of San Francisco loses all claim to the Golinsky group of copper mines near Kennett. The decision hinged on the location of a missing section corner, and Judge Head decided in favor of Bernhard Golinsky of Kennett, locator of the mines, holding that none of them are on Mrs. Goss' quarter section.

The case, which was tried last week, was one of the most important mining suits heard in Shasta county for several years. The group is under a bond to the Guggenheims for \$100,000. They have recently built an electric road to the mines.

## SILVER BOW IS ALREADY SHIPPER

COMPANY IS GETTING THE HIGH GRADE TO SMELTER RAPIDLY.

Silver Bow, the latest camp of the big strikes is making some of her neighbors pale by comparison, for she is already a shipper.

The second shipment from the Catlin property has been settled for by the Western Ore Purchasing Company. This was a shipment of second class ore, which went about \$85 a ton. There were twenty tons shipped in all, and the returns were \$1479. The first shipment was of sixteen tons and it netted the company \$2002.56.

The company is not only going after the ore, but is getting the high grade to the smelter as fast as possible, for they are the kind of men who believe in getting the money out of the ground as fast as it can be hoisted and sent to the smelter. Teams are going after more ore, and another shipment may be expected in shortly, for the reason that there are at least 250 sacks of high grade ready to be shipped. Shipping will continue as long as the roads remain good. The Catlin group was purchased by Bert L. Smith, C. D. Porter and John Gregovich not three months ago, and already she is a producer.

One was beaten, Dunn said, for singing patriotic songs, another for asking for tobacco and a third for requesting toothache medicine. ## MARKET STILL APPREHENSIVE

(Associated Press.)  
NEW YORK, Oct. 17.—The irregular movement of prices of stocks today offered a confusing medium through which to try to discern any defined setting toward the market. During the early part of the day this feeling was of more active anxiety, while later, with the subsidence of disquiet, there was still a passive apprehension that was not yet clear in tone. The collapse in United Copper stock on the curb market and collateral consequences from that event were central influences, as they were yesterday. Bonds were easy. Total sales had a par value of \$2,002,000. United States 4's registered declined 1/4, and coupons 1/2 per cent on call.

The deposits of the State Savings Bank are \$3,250,000, and in the savings department about \$1,250,000, the latter from the working people of Butte.
